Atlas / pilot overview

Fictional example document / Folio Document AI

Atlas is a fictional internal knowledge-search pilot. The pilot will run for six weeks with twelve operations specialists. Success requires at least 85% source-citation accuracy and a median answer time below eight seconds.

Atlas / budget and decision

Fictional example document / Folio Document AI

The pilot budget is $4,800. The largest risk is outdated source documents. Owners must review documents weekly. The go/no-go review is scheduled for November 30, 2026.
